

Here is our complete pricing structure mapped entirely to **Standard Single-Letter IATA Booking Classes**.

In standard global distribution systems (like Amadeus or Sabre), single letters denote the exact fare, rules, and restrictions. For example, **Y** always represents the most expensive, flexible full-fare ticket, while letters like **G** or **T** represent deeply discounted web fares.

To make this perfect for your database architecture, I have assigned a **completely unique IATA letter** to all 17 of your specific sales conditions, ordered exactly by your channels and naturally following the industry's pricing hierarchy.

1. Office Sales

Walk-in channel with generally lower base rates.

IATA Class	Customer Type / Condition	Rate (ETB)	Industry Logic for this Letter	Category
M	Corporate with Bachos Mile number	1,250.50	Mike: Standard Corporate / High Economy	High
L	New Customer, no promo, no Bachos (Same for Corp/Non-Corp)	889.80	Lima: Standard Discount Economy	Medium
U	With Bachos Mile and fixed rate	804.60	Uniform: Restricted Economy	Low
N	Non-corporate with Bachos Mile number	723.60	November: Lower Discount Economy	
O	New Customer with seasonal promo code	600.00	Oscar: Off-peak / Promo Ticket	Promo code

2. Phone Sales

Higher channel rates.

IATA Class	Customer Type / Condition	Rate (ETB)	Industry Logic for this Letter	
Y	Corporate without Bachos Mile number	1,350.50	Yankee: Full Fare Economy (Highest)	
K	New Customer, no promo, no Bachos (Same for Corp/Non-Corp)	950.70	Kilo: Premium Phone / High Economy	
V	Non-corporate with Bachos Mile number	890.70	Victor: Discount Phone	
E	With Bachos Mile and fixed rate	704.60	Echo: Excursion / Fixed Rate	
X	New Customer with seasonal promo code	600.00	X-ray: Promotional Ticket	

3. .Com Sales

Relatively higher than phone sales.

IATA Class	Customer Type / Condition	Rate (ETB)	Industry Logic for this Letter	
-------------------	----------------------------------	-------------------	---------------------------------------	--

H	New Customer, no promo, no Bachos (Same for Corp/Non-Corp)	1,055.80	Hotel: High Base Economy	
Q	Non-corporate with Bachos Mile number	950.60	Quebec: Standard Web Economy	

4. WebApp Sales

The lowest rates in the system.

IATA Class	Customer Type / Condition	Rate (ETB)	Industry Logic for this Letter	
B	Corporate with Bachos Mile number	1,350.50	Bravo: Flexible Corporate Web	
T	Special Customers with Bachos Mile and fixed rate	804.60	Tango: Ticketless Special	
S	New Customer with seasonal promo code	600.00	Sierra: Seasonal Web Promo	
W	New Customer, no promo, no Bachos (Same for Corp/Non-Corp)	510.70	Whiskey: Web Base Flex	

G	Non-corporate with Bachos Mile number	423.70	Golf: Deepest Discount / Group	
----------	---------------------------------------	--------	---------------------------------------	--

Developer Note: By using 17 distinct standard letters from the IATA alphabet, you now have a clean, 1-to-1 mapping. You can use the `IATA Class` character as a primary key or enum value in your MySQL tables to instantly look up the exact channel, price, and condition without any overlap.
